#### Description of the problem

We charge a fixed price for the analysis of 1 delivered sample (200ml liquid or 5g solid per sample), regardless of the results, of **€ 120,00 excl. 21% VAT**.

I want a tannin test for an extra cost per sample of **€ 10,00 excl. 21% VAT**.

I want an extensive analysis with a ground water data comparison for a total price **€ 180,00 excl. 21% VAT**.

EMERGENCY PROCEDURE: my application is treated with urgency for an extra cost of **€ 30,00 excl. 21% VAT**.

Contact us to know when the result will be available.

Your samples will be tested on the following parameters by use of digital photo spectrometry (NEN-EN-IEC 61010-1 and NEN-EN-IEC 61326-1). Depending on the sample or examination, there will be tested on every parameter.

Ammonium, chlorine, phosphorus, copper, nitrate, nitrite, iron, pH-value, oxygen, silicon, fluoride, total hardness, carbon hardness, conductivity, micro or macro examination, salt, surface tension, TDS, NP-value, ground water data comparison, tannin.

This laboratory report only applies to the delivered samples and are to be considered strictly limitative. The delivered samples can be stored on express request, otherwise the samples will be destroyed after 30 days. The made observations are under all reservations, not limitative and without the least negative acknowledgement.
